Gov. Declined. Report attached.

Hanah Ehrenreich, Executive Director, Sustainable Sandhills, will be coming to present the report on the economic impact of the ACP. Accompanying her will be Dr. Sarah Taber who authored the report.

“Sustainable Sandhills has commissioned an economic impact study on the proposed Atlantic Coast Pipeline. We have grave concerns that the estimated economic benefit of this project has been overstated by ACP, LLC and that opportunities are being overlooked for North Carolina to keep more energy production dollars in the state by investing in cleaner, local energy generation.”
